

# Fund for Quality

Expanding Early Childhood Education in Philadelphia

## Rolling Application Deadlines

Grant applications will be accepted on a rolling basis. However, we will not consider an application that is submitted within less than 6 months of the intended construction project completion date. Please allow time for your organization to undergo and complete FFQ planning. The length of the Planning Phase varies based on your organizational and project needs. As a reminder, Fund for Quality grantees must complete the Planning Phase in order to qualify for, and have access to, capital improvement funds.

Applications must be submitted in accordance to your desired project completion date, we will not consider applications submitted later than the following deadlines:

Desired date to begin programming for new FFQ seats	FFQ Application Cut-off date
September 2017	March 1, 2017
January 2018	July 1, 2017
September 2018	March 1, 2018

**\*\*Please note: the cut-off deadline is a minimum and will not ensure timely project completion. If your project requires significant planning, renovation or construction, you should have your application submitted at least a year in advance in order to keep your project on schedule. Please check with FFQ staff to understand the best time to submit an application for your project.\*\***

Please direct application questions to [fundforquality@phmc.org](mailto:fundforquality@phmc.org).
